Storm C - Ian Thorpe Aquatic Centre Sydney & MY Utopia Europe Foredeck

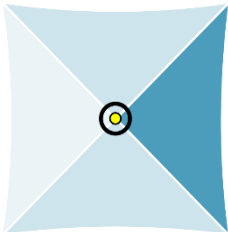

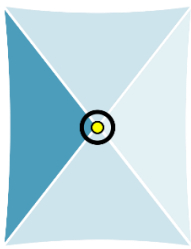

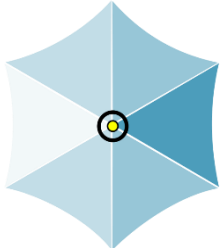

Storm C - Wind Engineered Centre Post parasols - Ex Factory UK - Trade Prices V1 2026

Storm C is engineered as the leading wind-resistant Centrepost parasol/umbrella in its class, setting the benchmark for durability and performance. Its mast is crafted from high-strength 316 Marine Stainless steel with a satin Bead Blast finish, with an optional mirror-polished finish also available. Alternatively, the mast can be ordered in steel with a satin polyester powder-coat finish, available in White, Anthracite, or a custom colour. The central hub, made of high-strength solid cast alloy or steel, connects to spokes constructed from Marine anodised T6 aluminium or engineered steels. The easy-to-open gearbox is made of low-maintenance anodised aluminium and stainless steel. Tension canopies are made from high-quality PVC sourced from reputable brands such as Ferrari, Mehler, or Saulea, each incorporating a stainless catenary cable. **Designed and manufactured in the UK**, Storm C balances advanced engineering with premium materials throughout.

Examples of SHADEmakers UK Installations. We can assist with guidance or turn-key solutions.

"At SHADEmakers UK, we take great pride in our sales and aftercare service. We are committed to providing ongoing service to our clients long after their purchase. For instance, we still provide clients with spare parts and custom canopy tailoring for parasols that were purchased from us over 20 years ago. Our UK team can service, repair, and refurbish any product we sell. Give us a try."
