

Tellus Tubular by ShadeArt

Discreet and slim stainless side post parasol ideal for tight spaces

Tellus Tubular side post parasols or umbrellas have a **vertical, slim** 60mm diameter (Ø) round, high strength, stainless steel mast which makes them corrosion resistant and ideal for smaller spaces. This parasol from [ShadeArt](#), comes standard with **360° rotation** allowing the canopy to be moved to follow the sun or to the side when not in use. An optional articulated boom which folds back on itself when not in use - ideal for compact spaces where storage is limited.

Taking its name from the Latin word for earth, [Tellus Tubular](#) is a spin off from the [Nautica](#) range, which was developed for the super yacht and coastal resort markets. The [Tellus Tubular](#) is more likely to be found on land than at sea although it borrows many design and style elements from its mirror polished, nautical cousin.

As with all [ShadeArt](#) parasols and umbrellas, [Tellus Tubular](#) has a custom stainless winch, internal cabling and a removable winder handle that ensures ease of use and the added safety feature that prevents unwanted tampering. Tellus Comes in a selection of sizes, shapes and colours with options including the articulated boom, heating, lighting, and branding and can be installed either permanently or to a pedestal base.

Links to other side post parasols manufactured in the UK by [ShadeArt](#):

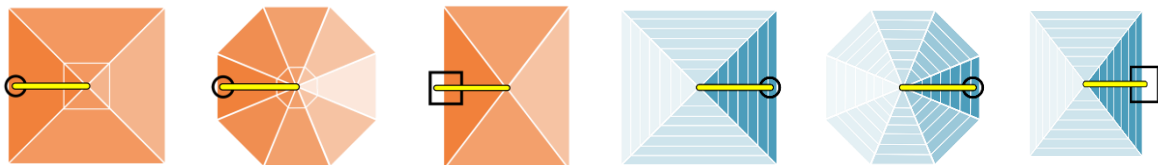

- [Nautica](#) premium vertical mast in laminated timber and stainless steel - fabric canopies
