Bora Astro S - SHADEmakers UK

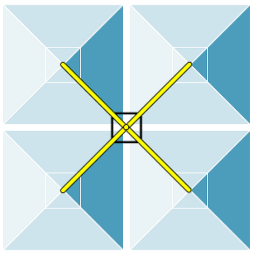

The single cantilever parasol offers unmatched flexibility, providing maximum coverage from a small footprint. It retracts into a compact vertical format when not in use. The lightweight design allows for easy removal for seasonal storage. Incorporating a unique gas spring assist makes it easy to open and close with a simple sliding motion. The robust oval mast is constructed from 100mm x 70mm extruded aluminium, coated in one of several optional colours, including Carbon, white, wood effect, or Titanium silver anodised. Stainless steel fittings are used throughout. An integral easy lift rotation feature allows you to move the canopy as the sun shifts throughout the day, ensuring maximum shade.

The Bora Astro is also available in Duo Central, Duo Lateral and Quad canopy versions for larger areas**.**

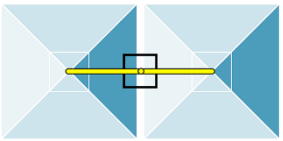

The Bora range can be ordered with **one, two, three or four canopies supported by** one central or side pole mast.

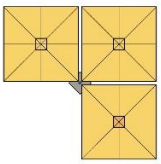

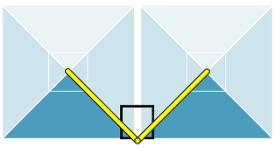

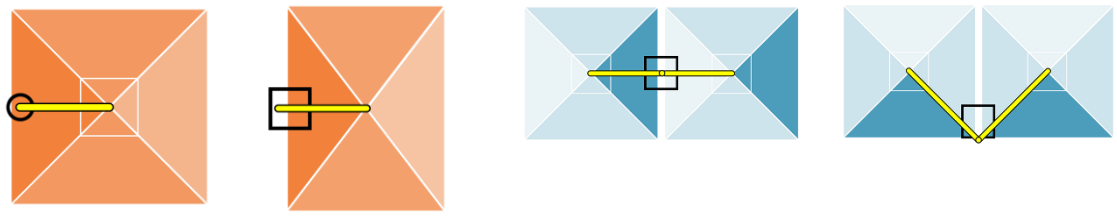

Fabrics–European solution-dyed acrylics are used for the membranes, with a choice of around ten colours or any of ShadeArt Fabrics' > 100 custom colours.

Bora S - Features

- **Easy lift Rotation** – follow the sun through 360 degrees and stay shaded, or not, throughout the day.
- **Opens over most outdoor furniture with ease.**
- **Durable –** high-strength marine anodised or painted alloys, stainless steel and GFP
- **Choice of frame colour –** Carbon, White, Wood and Titanium
- **Shapes** - Square, Rectangle, Duo, and Quad
- **Sizes** – **Square 3.0 and 3.5** metres, **Rectangle 4.0 x 3.0** metres plus larger combinations of **double and quad** canopies
- **Colours** – 10 standard and >100 optional – **Solution Dyed Acrylic**
- **Ease of assembly**–bolting the mast to a pre-installed ground anchor or pedestal base takes about 10 minutes.
- **Easy to operate** –loosen the knob, slide the handle up to open and twist to lock – that easy.
- **Sun and rain protection: our** canopies offer high levels of protection from the sun's harmful UV rays and are also highly water resistant.
- **Fabric quality**–Premium solution-dyed European acrylic canvas is guaranteed to retain 80% or more of its original colour for five years.
- **Corrosion resistant** – mast and booms are made of durable, low-maintenance marine anodised aluminium or optional timber-look **aluminium**.
- **Easily stowed** - in high winds or for winter storage, simply lower and strap the canopy to the mast.
- **Optional Branding** – email your artwork, and we will arrange your canopy or valance logo during manufacture.
- **Optional – Heating and Light**
- **Permanent or portable** - bolted to ground anchors or pedestal bases. We can also customise most solutions.
- **Spare parts and canopies** – available – SHADEmakers still service parasols we sold over 20 years ago.

At SHADEmakers UK, we take great pride in our sales and aftercare service. We aim to provide clients with continuous support long after their purchase. For instance, we still supply clients with spare parts and tailor canopies for parasols we sold 20 years ago. Our UK team can service, repair, and refurbish anything we offer. Try us.
