

Storm C (Centre post) by ShadeArt

Strong and robust parasol engineered for wind gusts up to 70mph / 112kph - can remain open virtually year-round.

Storm C masts are fabricated from high strength stainless steel, also known as inox, which is then bead blasted to a beautiful silver satin finish. This ensures a durable, corrosion resistant and virtually maintenance free mast and means **No rust and No paint to chip or flake**. Stainless steel means this is a much stronger parasol than the aluminium versions generally on offer and can also come in a brushed or hand polished finish.

Storm C canopy frames are made from high strength, marine anodised spokes, all securely bolted to a solid cast and anodised alloy hub. Canopies are tailored from low maintenance, architectural grade high tensile PVC membranes. This is one of the strongest (if not strongest) and most robust centre post parasols and umbrellas anywhere in the world.

The purpose built and maintenance free gearbox is coupled to a marine anodised drive so the canopy is opened and closed with ease - simply insert the winder and turn. The removable handle prevents unwanted tampering.

Canopies come in a variety of colours, shapes and sizes. They provide optimum protection from the sun's heat and harmful UV rays and are perfect for year-round wet weather cover. With **sizes ranging from 6m² up to 25m²**, optional features include linking gutters for multiple canopies, rain sides, heating, lighting, sound, and branding.

Storm C was originally designed for Australia then perfected and manufactured in England by **ShadeArt**.

SHADEmakers UK proudly supply to all sectors within the UK and abroad. This parasol or umbrella is ideally suited for resorts, museums, golf courses, schools, hotels, cruise liners, super yachts, and private homes - virtually anywhere a strong, durable, and attractive shade solution is required. With proper care, will provide years and decades of service unlike many inferior parasols in use today.

Links to other Storm parasol options manufactured in the UK by **ShadeArt**:

- **Storm S** - side post option
- **Storm Portable** - smaller for daily set up on pedestal or ground anchor bases.

Storm C (Centre post) Features
